

We have been working hard to try to get a new element to Accelerated Reader, which we use at school, up and running so children can read at home.

We now have access to thousands of books online so that children can read at home. There is a link in the children's section of Hallam Fields' website, or you can follow this link to <https://www.myon.co.uk>

We are also sending a parents' guide to using the site. We would really encourage your child to read regularly throughout the week, and ideally every day! There is lots of choice on the website, the first task when children login is to select their own interests which then helps with suggested books. **Their username is the same as the one they log in to Accelerated Reader (this should be in their home school diary), the password for all children is Read**

There is an option to connect to their accelerated reader account when your child logs in (use your child's accelerated reader account details from their home school diary when you click on connect now). This will help guide them to books of the correct level.

If children are reading a book of their own at home, they can also continue to login to accelerated reader to complete a quiz once they finish the book, which will record what they have been reading.

There is a link on the school website in the children's section to Accelerate Reader or use this link <https://ukhosted71.renlearn.co.uk/2236229/>

Happy Reading, any problems logging in please email school and we will try to help.
