

Subject Concept Grid - Year 3

Design Technology

seasonal	design criteria	scoring	cross-stitch	seam
nutrients	evaluate	linkage	decorate	target audience
exported	facade	lever	fabric	template
imported	function	applique	patch	mechanism

Subject Concept Grid - Year 4	Design Technology
--------------------------------------	--------------------------

aesthetic	rubbing	creaming	sieving	conductor
cladding	function	method	chassis	insulator
design criteria	reinforce	ingredients	mechanism	series circuit
evaluation	target audience	prototype	component	frame structure

Subject Concept Grid - Year 5	Design Technology
--------------------------------------	--------------------------

ethical issues	cross-contamination	appendage	template	target audience
ingredients	reared	blanket-stitch	coin cell	measure
nutrients	substitute	evaluate	component	reinforce
packaging	aesthetic	design criteria	function	research

Subject Concept Grid - Year 6

Design Technology

aesthetic	linkage	template	processed	annotate
design criteria	mechanism	cross-contamination	reared	fastening
function	prototype	accompaniment	target audience	running-stitch
exploded diagram	structure	preparation	research	seam
assemble	circuit symbol	component	evaluation	fit for purpose
